--------------------------	----------

METO®, a division of Checkpoint, brings a wide variety of innovative and highly cost-effective merchandising and hand labeling solutions to global retailers, providing in-store communication and promotion, shelf management, labeling and shopping convenience solutions.

For more than 50 years, METO has been inventing many of the common merchandising and labeling solutions that are used today in retail environments. Checkpoint's METO division offers solutions that are easy to handle and install, meeting the requirements of today's fast-moving retail landscape, where time is money.

METO solutions help to effectively communicate prices and promotions, product origin, sell-by dates and the information needed to increase sales opportunities.

METO equals quality and durability, inspiring the industry to reach consumers in the most effective way.

Very close cooperation with the retail business is integral to METO's success.

Through this partnership, we continue to develop innovative concepts for you, our customer.
