NanoGate is the industry's first compact security gate for intra-store protection. Available in both AM and RF versions, it provides security for unprotected zones within your store. This small, attractive antenna activates our 3 Alarm products protecting your merchandise.

NanoGate mounts directly to door frames and walls and is simple to install. There is a stand option if no mounting surface is available.

ABOUT ALPHA

Alpha provides you with the most innovative and technically advanced products engineered to protect your high-theft merchandise. Any theft is unacceptable. It is our goal to help you control all levels of theft and improve your bottom line one innovation at a time.

Every Alpha product provides:

- Security to ensure the highest level of protection for your high-theft merchandise.
- Aesthetics to enhance the merchandising of the retail products they protect.
- Value to increase your profits by reducing theft and helping to defend your bottom line.
- Ease-of-use allows for easy application and removal with less disruption to your sales process.

PROVEN RESULTS

Integrating Alpha solutions into your loss prevention plan is an investment. Our solutions are designed to defend your bottom line, and you will see results immediately with a pay-off in months, not years. This outstanding ROI has been proven time and time again with our customers.
